

WEEKLY NEWS LETTER FROM EDMONTON

Tragedy again, the sort of tragedy the farmers face so often, confronts 1,500 farmers in the Peace River area, through their inability to secure binders to harvest their first good crops with this is the news brought to Edmonton by C. W. Frederick, publisher of the Peace River Record and Grande Prairie Herald. The announcement by the Provincial treasurer that the government will guarantee no twice credits has brought about the problem. The crop would enable the farmers in the north to get off relief, if it could be harvested, Mr. Frederick states. "They can't get bank loans. Each individual needs from \$500 to \$100. The banks charge seven per cent interest and they aren't interested in small loans.

Freight shipments to Great Bear Lake over the Fort Fitzgerald-Port Smith portage increased by about 40 per cent over last year in the same period. The toll being \$500 to \$600 per ton. This is the result of tremendous activity in the new mineral area. Both the Hudson's Bay company and the Northern Transportation company have found it necessary to increase the size of their shipping fleets in the North.

Charles E. Garrett, vice-president of the Canadian Institute of Mining and Metallurgy, who has recently paid a visit to the area states that the richness of some of the veins of silver there is almost unbelievable. "Some samples taken from the widths of veins run as high as 2,000 ounces of silver per ton, he said.

Sportmen in all parts of Alberta will be pleased to know that Ruffed Grouse, which have been on the prohibited list, may be shot from October 1st to 15th this year, both dates inclusive according to a change in regulations announced in the Alberta Gazette. The new order applies, however only to that part of the province north of Kerrobert - Coronation-Lacombe branch of the C. P. R. and Red Deer river. The bag limit is set at five per day and a total of 25 for the season.

The names of pupils from the Strathmore School obtaining full or partial credits in the Units attempted are as follows. The first figure is the number of Units attempted and the second the number in which credit was obtained.

Frank Bates	1	1
Leslie Christensen	1	1
Mary Colewell	1	1
Jean Garrett	1	1
Elva Schumann	3	3
Wilson Walls	3	3
Correll Williams	3	3
Frank Banta	5	5

Jack Van Tighem	7	7
Bernice Whitelaine	7	7
Rhonda Wolcott	7	7
Donald Nichol	7	7
Andrew Taylor	7	7

In all 48 pupils attempted Units, credit was obtained in 134 or 78 per cent cases.

More farmers and others this season are producing honey in Alberta than ever before, according to S. O. Hillier, provincial apiarist. There are now approximately 1,000 beekeepers in the province. The total production of honey this year will be 1,000,000 pounds and over it is estimated.

Mrs. Elizabeth Lyttle is spending a few days with relatives in Drumheller.

Mrs. Margaret Edwards has returned from spending a few weeks in Cluny.

Mrs. T. J. Koch and daughter, Mrs. Wm. R. of St. Louis, are spending a few days with relatives in Clonville, B. C.

Mrs. Frank Pavsek who recently arrived from Czechoslovakia has now taken residence up in Ardenode.

Mrs. and Mr. H. Timmy of Calgary recently came to the home of Mr. and Mrs. A. Jensen on Friday last.

Mrs. W. T. Koch and daughter, Mrs. Wm. R. of St. Louis, are spending a few days with relatives in Clonville, B. C.

Mrs. Frank Pavsek who recently arrived from Czechoslovakia has now taken residence up in Ardenode.

Mrs. and Mr. H. Timmy of Calgary recently came to the home of Mr. and Mrs. A. Jensen on Friday last.

Local News Items

Mrs. Fairlie and Miss Marjorie Fairlie, who have been guests of Mr. and Mrs. Nels White for some time left for their home in Manitoba Saturday.

Mrs. Barnes is spending the month of September in Calgary with her daughter, Mrs. Haylock.

Mrs. and Mr. May, Mrs. Woodville, Mr. Freeman, F. and W. Ridley, Margaret and Dorothy Freeman, Betty French, Teddy Schulte, Andrew Garrett, Ken Wright, Don Nichol, Harold and Jack Freeman, played a return match with the Elbow Park Tennis Club, in Calgary Saturday evening.

Dr. John Giffen has as his guests for a couple of weeks, his mother and brother, Mrs. Giffen and Mr. Albert Giffen of Edmonton. Miss Blanche enjoyed a couple of days in Strathmore leaving later for the Coast.

Mrs. Van Tighem and son, Frankie left Wednesday last for a visit to her Mother and sisters in Vancouver.

Mrs. Mildred Marcum and Miss Katherine Morrow were among the excursionists leaving Saturday last to enjoy a couple of weeks at the Coast.

Mrs. Florence Garrett is enjoying a week's visit at the McManus home in London.

Mrs. Kent has arrived from Vancouver and will be the guest for some weeks of her sister Mrs. Fred McKay.

If you wish to see a delightful and artistic arrangement of a lawn, stroll by Mr. Ian McKenzie's home some evening and see what a transformation has been wrought.

Mr. Ian McKenzie is suffering from an infection from the lake water, which is causing him considerable pain.

Mrs. W. E. Springthorne is leaving Strathmore Monday next, enroute for Montreal where she will take ship for England to spend six months with her parents in London, Bon Voyage.

Misses Ruby Gillespie and Minnie McLeary of Calgary were guests Sunday of Misses Gladys and Milda Hughes.

Strathmore Golfers comprising Messrs. Perry, Pierson, N. White, T. Hughes, Milson, L. Van Tighem, G. Koch, Bobby Koch, L. Christensen, played a keen contest of 36 holes on the Royal course with Calgary players Sunday last. They will complete again Sunday next with another 36 holes played on the Municipal course.

Mr. R. K. McLean of McLean and Anderson, right specialists, Calgary, will be at the Rexall Drug Store, Mon. Aug. 27. Have the children's eyes examined before returning to school.

Schools will reopen in Strathmore Tuesday, Sept. 4th.

For Sale - Second hand school books at Lambert's Drug Store. Bring in your old books and reduce the cost of your school supplies.

U. F. A. ASKS DOUGLAS TO SUBMIT PLAN FOR ALBERTA

EDMONTON - Meeting last Wednesday in the afternoon session, a general executive of the United Farmers of Alberta decided to invite Mr. C. H. Douglas, originator and chief exponent of the "Douglas System" of social credit, to submit a plan of his system for study by the U. F. A. organization.

Major Douglas on the invitation of the legislature, appeared on two separate days during the last session of the House and gave an exposition of his scheme. He was asked if his plan was feasible and workable for Alberta and he replied that it was not. Nevertheless, he was asked if the U. F. A. organization interested in the scheme and feel that it is some variation of the plan can be worked and feel that it is at all workable for this province, it should be at least studied.

School Opening

School will reopen on Tuesday 4th September. One room of the Public School will be closed and the organization will be - Grades I, II, III, Miss M. Folk; Grades IV, V, VI, Miss M. Gordon; Grades VII, VIII, E. Cameron High School, W. I. McKenzie and J. H. Crowther.

A list of the High School Units to be taught this year, together with the texts necessary is appended, in the hope that pupils will do their best to supply themselves with the required books before the opening day and thus facilitate the work of the school.

General Science - Hilton, A. Book of General Science.

Composition 1 - A new Composition for Secondary Schools.

History 1 - West, History of Early People.

French 1 - Frazer & Squire, New Elementary French Grammar.

Algebra 1 - Crawford, High School Algebra.

Literature - Hawthorne, Wonder Book, Selected stories from Conscience, Tenyson, Enoch Arden.

Literature 1 - Poetry Selections, Series 1; Prose Selections, Series 1.

History 2 - Mowat, A new History of Great Britain.

Composition 2 - A new Composition for Secondary Schools.

Geometry 2 - McKnight & Shepley, High School Geometry.

Literature 2 - Poetry Selections, Series 2; Scott, Lay of the Last Minstrel; Shakespeare, Merchant of Venice; North-western projects, breath-taking in their immensity and keyed admirably to a distant future.

Two controlling factors have emerged during this unprecedented trip.

1. Government, under Mr. Roosevelt will push farther and faster into projects which hitherto were either left to private initiative or which were beyond its reach. State Socialism, in the constructive sense, is emerging more and more.

2. The President himself wants to be known as the "Master Builder" and admits tactfully, and without embarrassment, that the utility of his projects is on the whole, far off.

With almost crusading zeal he rides form project to project. Around him are many skeptics, people on the spot with their local pride and the advantages of money poured into the neighborhood, generally do not doubt. Some seem to be the "most meg-deal" fish" town in the nation.

But in this inspection party are plenty of long-headed observers whose views are cocked at a quizzical angle as they ride from one mammoth project to another. One of them is Mr. Harold L. Ickes, the Secretary of the Interior, who has never ceased to question the Grand Coulee Dam. Another may be Mr. Roosevelt himself, who remarked at the college to Senator Clarence D. (D) of Washington:

"Well, Senator D., I'm pretty good salesman."

Local News Items

Andrew Garrett was taken to the General Hospital at Calgary Tuesday evening, where he underwent an operation for appendicitis, the same evening. Reports are that he is convalescing nicely and his many friends will hope for a complete and speedy recovery.

1931 wheat has been delivered at both the A P and Pool Elevators in Strathmore during the week, the prices being 66c for No. 1 Wednesday; Mr. E. Short of the Pool bought a car load of No. 1 wheat. Mr. W. Julian delivered the first wheat to the A P Elevator.

Mr. Jim McKenzie is the guest of his cousin Mr. Ian McKenzie and Mrs. McKenzie.

Mrs. Cecil Lambert had as her guest during the week and Miss Bibby of Calgary.

Mr. and Mrs. J. A. Lydiate and Gordon are enjoying a very pleasant outing at Sylvan Lake.

Mrs. Platt, Mrs. Ian McKenzie, Mrs. Perry Wright and Mrs. Oliver Wright were joint hostesses Wednesday at a delightful Tea at the home of the latter in honor of Mrs. W. E. Springthorne, who leaves Monday next enroute to England. About twenty ladies were present who presented Mrs. Springthorne with a very lovely Yardsley toilet set, with the good wishes of all for a safe passage, a happy visit and a welcome return.

Delicious refreshments were served from a table very prettily decorated in purple and lavender shades, carried out on the color scheme of the gift. Tea cup reading and a happy social hour was enjoyed by all as the time arrived when goodbyes were said.

A bad accident occurred Wednesday evening on the highway opposite Mr. Johnson's home, about two miles East of Strathmore - when two Calgary travellers were returning home. The car turned over several times and both men were thrown out. Mr. J. E. Bell escaped with floor bruises and scratches, the other whose name we have not learned suffered a broken shoulder bone and was taken to the Calgary Hospital. It is thought a tire blow-out was the cause of the accident.

WINNERS AT HORSESHOE

The Strathmore Horse Show pitching contest is about concluded, Leslie Christensen so far has pitched the highest points in any game, being 74 points.

J. A. French is high man in the contest while R. Bowers is a close second and Paul Christensen only one point behind R. Bowers. The standing in the contest is as follows, J. French played 18 won 14 lost 4; R. Bowers played 18 won 13 lost 5; P. Christensen played 18 won 12 lost 6; L. Christensen played 18 won 12 lost 6; N. Gellin played 18 won 10 lost 8; J. Watson played 18 won 7 lost 11; other players are A. Fraser Jr., Mr. Koch, W. McNeil, Mr. Carlson and Francis Callaghan.

KIDNAPPING PLOT FAILS

The release of Mr. John Labatt, unharmd and without the payment of any ransom money, is a satisfactory ending of the first case of kidnapping for ransom in Canada.

It would be more satisfactory if the kidnappers were captured and given what they reserve, and no doubt the efforts of the police will not be regretted. There is no hope of finding the criminals. Having abandoned their victim, however it will be much easier for the mob to get out of the country.

BROOM CORN AT TABER

Satisfactory production of broom corn for use in the manufacture of brooms has been established on the irrigated section surrounding Taber in southern Alberta this season.

Some of the acres have been grown in contract with a firm at Regina, which will utilize the material. The crop was recently inspected by officials of the committee and found to be in excellent shape. Some of the crop stood as high as eight feet.

Wool scouring plant

Establishment of a wool scouring plant, valued at \$50,000, capable of handling the bulk of Alberta's annual wool clip, is now assured for the province, according to authoritative information available in Edmonton. Just where the plant will be located is not yet decided. Two locations are being considered by the eastern firm handling the proposition, namely, Edmonton, Calgary, Lethbridge, and Medicine Hat. One of the main considerations is proper railway facilities for both inward and outward shipments. The annual wool clip of the province runs between 2,500,000 and 4,000,000 lbs. The largest proportion is produced in Southern Alberta, but there are a number of smaller producers in the Central and Northern parts of the province. It is stated that the financial arrangements for the plant have been completed, and that installation can be commenced as soon as a definite location is arranged. The proposition is being closely studied by the provincial trade commissioner's office at Edmonton.

Newsy Notes

Extracting sugar from wood
 in Germany
 MUNICH—Rapid strides are now being made in Germany with process for extracting sugar from wood. Germany has one great natural wealth—her forests, which have been cultivated and replanted for centuries. But it is estimated that 60,000,000 cu. meters of refuse wood are wasted annually in the form of fuel. Now through abstract chemical theory and laboratory experiments, a new industry is growing up in Germany which is designed to make the most of this natural and make practical the desires of the supporters of economic autarchy.

There are two ways of extracting sugar from wood, both of which have been industrialized in Germany. Among the outstanding advantages of the chemical exploitation of wood is reckoned the possibility of providing a novel source of income to the extremely poor population of the densely wooded ranges of central Germany and Alpine foothills, which would be a welcome outlet to national energy and in that way would have beneficial effect on the international atmosphere.

A commercial traveller had taken a large order up in Aberdeen, and endeavored to press upon the canny Scot, who had given the order, a box of cigars.
 Now, he replied, don't try to bribe a man. I could tax them—im a member o' the kirk.
 Well then, said the traveller, suppose I sell you the cigars for—say suppose?
 In that case, replied the Scot, not thing the refuse an offer weel meant, I think I'll tak two boxes.

America and the world shift interest from stratosphere to bathysphere as Dr. Wm. Beebe begins his summer plunging to ocean depths off Nonuch Island, Bermuda, accompanied by Otis Barton, inventor of the 5500-pound steel ball in which they brave terrific pressures. Dr. Beebe goes down 2150 feet. He compares the phosphorescent lights on strange fish to "stars in a black sky twisting around crazily as though suddenly gone mad." Even timid stay at homes will soon be begging for a bout with the bathysphere.

Babe Ruth Favorite.
 Boston sends 47,000 persons to Fen-

way Park to watch Babe Ruth play his final big league games in the town where he started. In the double-header Ruth and the New York Yankees lose to the Boston Red Sox 6 to 4 and win from them 7 to 1. There is much exciting play, but all eyes are the Babe's. He taps two light ones, but adds no homers to the string of 703 that have sent him running more than 50 miles around bases in 20 years. On or off the diamond Babe Ruth will remain King of baseball and fans who can never forget will continue their shouting—"Long live the King!"

Mr. MacKenzie King has lately been in Toronto conferring with prominent Ontario Liberals regarding the five federal by-elections which will be held in that province on Sept. 24. It was decided that all the by-elections would be contested. The five vacancies are due to the resignation of two Liberals, Mr. Mitchell Hepburn and Hon. eter Hennan, to enter the provincial field, and to the deaths of three conservative members, Hon. E. B. Rykman in Toronto east, Col. T. T. Leeson in North York, and Dr. William Spink in Pontreac, Addington.

A Sailor had saved his captain from drowning.
 Tomorrow, said the captain, I shall thank you in front of the entire crew for your act of bravery.
 Doubt do that, said the sailor, they'll kill me.

Does a woman who wears a fur coat ever think of the animal that supplied it? asks a humanitarian.
 Oh, yes when she wants another cheque from him.

Dad—Now son, why are some women called Amazons?
 Son—Well the famous South American river is noted for its mouth.

HERVEY NOTES

Victor Stockdale is visiting his sons again these holidays.

The tactics of the strong gale of Friday last reminded a person of the scenes in Dooville. One barn was buried against the haystack and bounced back to its place a few hours later. A

**"You Can't Stop
stoking a steam
engine"**

Said Wrigley

Interviewed, and asked to what he attributed his phenomenal success, the late Mr. Wrigley, of chewing gum fame, replied, "To the consistent advertising of a good product."

"But," asked the reporter, "having captured practically the entire market, why continue to spend vast sums annually on advertising?"

Wrigley's reply was illuminating.

"Once having raised steam in an engine," he stated, "it requires continuous stoking to keep it up. Advertising stokes up business and keeps it running on a full head of steam."

This applies to your business, too. Don't make a secret of your product. Tell people all about it. Tell them what it does. Tell them its advantages. Tell them where to get it. Tell them through the Press and keep on telling them.

ADMIRAL BYRD

AND HIS RESCUERS

It is a long step from the heat of last week in Strathmore to the frozen Antarctic where Rear-Admiral Richard E. Byrd was rescued Aug. 13 by a party of three faithful and devoted friends after his lonely vigil of five months, alone, in the frozen land of the Southern zone.

Burns wrote: "Man's inhumanity to man, etc. but the rescuing of Admiral Byrd proves that the milk of human kindness still flows freely in the human heart, which impelled these three rescuers, Dr. Thos. E. Foulter, Mr. Amory H. Walte jr. radio operator and Mr. E. J. Demas, mechanic, to pursue their difficult and dangerous journey into the frozen lands to rescue their commander." The relief party travelled by tractor, which they had to "muzzle" carefully over the icy barriers. The found Admiral Byrd weak and worn but cheerful despite the suffering and privation of five lonely months and Dr. Foulter felt sure he would recuperate quickly. Radio broadcasting this man achieved wonder kept the rescue party in touch with their headquarters and by telegraph news service, we read in that days papers of the rescue and the world is thrilled.

That's the second time today I've seen that man following that woman in another car, yelling at her all the time.

Yes, that's old Johnson. He's teaching his wife to drive, but he's not taking any risks himself.

ROCKYFORD

Rockyford chapter O. E. S. and friends gathered at the home of Mrs. R. M. Olson to bid farewell to Mrs. Hodgson who is leaving to make her home in Vancouver. The evening was spent in playing cards. At midnight a delectable lunch was served. The guest of honor was presented with a pair of silver rose bud vases.

Mr. and Mrs. Hodgson and their son Leigh left by motor on Tuesday afternoon via Spokane to Vancouver. We wish them a successful trip and hope that they will meet many more new friends.

Harvesting is general around the neighborhood. The crops are very good this year but will not yield as much as was expected in the early part of July.

Mrs. C. Hodgson was the recipient of a beautiful silver bon bon dish presented to her by the president, Mrs. Howick of the ladies aid as a token of appreciation of her work with the Aid during her stay in Rockyford.

The annual Corn Roast was held on Wednesday evening. The crowd was not so large as former years coming to early harvest but a good time was had by those present. The program in charge of Mrs. R. Robinson, assisted by Mrs. E. Roberts was very good.

The Misses Etile Weaver and Winnie Adred neices of Mr and Mrs C

Bradwell who have spent the past six weeks here left on Tuesday for their home in Saskatoon.

Mr and Mrs H. Williams have as their guest for a few days Mrs. Jim Sanyater of Vancouver.

Mr Wm Walrod spent Saturday in Calgary.

Mrs R. Kenny, son Bonnie and their new baby daughter of Redlands are visiting with Mrs. Kenny's father E. W. Post for a few weeks.

NAMAKA

Miss Bina Peterson is home from Hockford and will remain till after Thanksgiving. Miss Ivy Watts is also back after six weeks vacation with her sister Mrs. Edwards.

Considerable damage by hail was incurred by farmers East of Namaka in last week's storm. Crops of Charles and William Watson were severely hit while George and James McLean consider their corn harvest.

Mrs. H. A. Miller entertained the small people of Namaka last Friday in honor of her daughter Marilyn's fifth birthday. Games conducted by Merle Baker and Millie Brenner filled the time before the appearance of the eagerly awaited birthday cake and other goodies. The guests included Connie Brenner, Mavis Macle, Jean Pawkes, Jean Little and Doris Drake. Marilyn was the recipient of many dainty little presents.

Miss Alberta Johns of Drumblair is the guest of her cousin Mrs. C. Macle this week.

A gloom was cast over Namaka on Saturday afternoon when Fred Bystron, of Calgary, repair man for the National elevator Co., met a tragic death while employed in the local elevator. He and T. C. Watts were engaged in putting in a new cement block for the engine and while the latter was away getting sand, Bystron was engaged in undermining the old block. Apparently it fell before he expected it to and the unfortunate man was pinned and crushed beneath 3000 lbs. of cement, meeting a presumably instantaneous death. The body was discovered by H. Miller, Post agent, who immediately notified the coroner and police of Strathmore who took charge of the remains. As far as is known the deceased was unmarried and without relatives in this country.

Miss Florence McBean has as her guest Miss Norma Anderson of Calgary.

NAMAKA FARM

Beaver Dam is gaining in popularity every year. The organizers and promoters of the Carleton C. G. I. T. Group recognized this ideal picnic ground and chose it for their camp this summer. Their choice justified their expectations. The final gathering of this group of merry people took place on Sunday, August 12th. A huge heap of brush was piled in the centre of the open glade. Chief Sitting Bull took her position on the Knoll. The brush was lit. The flames burst up to keep back the darkness. One of the commendable features of the program that followed was the fact that it represented originality on the part of all participants. As in all other lines of endeavor individual effort is the only way to get the maximum worth out of any activity. The welding of our cosmopolitan population into a Canadian citizenship is one of the great problems that confront us. Another step in this direction was taken by Mrs. Forster when she invited the children of another great nation to participate in the program, and the good old English community songs that followed did more to create a friendly understanding than a thesis on assimilation.

TUDOR

Harvest is quite general and there are six or seven combines working in the district. The grade is not so good as last year but with the 15c price in price, over that of a year ago and approximately same yield per acre we will have to content ourselves it appears.

Many, folks of the district mostly the younger class have been taking advantage of the fine swimming place on Mr. H. Best's ranch near Tudor. There is nothing like a nice cool swim in this hot weather.

NOTICE OF SALE

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that, Bay Hilt Forest Mare, white on right front and left hind foot, branded at cut on right shoulder, was impounded in the pound kept by O E Stumpes, Carleton located on N E 22—22—25—4 on the 3rd day of August 1934 and that the said animal died on the 4th day of August 1934. For information apply to the undersigned.

D N GARDINER, Sec. Treas.
Strathmore, Alberta.

LOCALS

Mr George McEae of the Mid-West Paper Co of Calgary is in the General Hospital convalescing from an operation for gall stones. He is now coming along nicely which his many friends will be pleased to hear.

Harry Poxon of Carbon overcame by gas fumes fell into a tank car of gas at 1.45 Wednesday morning and lost his life. The discovery was not made until almost an hour later when all hope of reviving the lad was past. The accident has cast an especial gloom in the district of Carbon.

ENDEAVOUR CROSSES SEA FOR CUP RACE

Bristol, R. I.—Endeavour, M T O M Sopworth's British challenger for the America's Cup arrived here recently, salt encrusted after 16 days at sea.

Her long jaunt across the Atlantic under her own sail—in compliance with the conditions governing the challenge in the international race—at an end, she quickly went through the routine of immigration, health and customs inspections and was warped into a dock at the Torrance yard. There work was begun immediately in preparation for the America Cup races next month.

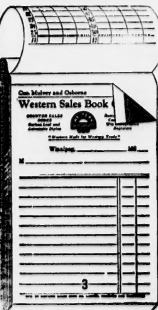

Her voyage from England was a crossing so perfect that it lacked excitement, in the words of her crew. She was under the professional guidance of Capt George Williams as skipper.

Mr Gerald Penny, a member of her afterguard and the only strapping part of the voyage was during last week's storm. Just as it began to breeze up it was found necessary to take supplies from Vitis, the big escorting yacht, to Endeavour.

Thirteen men manned the Endeavour during the trip, he said, but the annals among them were transferred at the Azores.

WHEAT NOTES

The reduction in the production of coarse grains in the U S A from last year and from the long time average is considerable. In fact the production of the five principle grains in that country is 460 million bushels below last year and a billion and a half below the five year average production of all these grains. Such figures tell a more graphic story than any number of words could do and suggest an agricultural tragedy the likes of which the United States has never before experienced.

Corn production is estimated at 2,113,137,000 bushels, which is 403 million bushels below the five year average. Recent hot weather has indicated a reduction of the corn estimate down to two billion bushels.

GRAIN EXPORTS, VANCOUVER

Up until the end of June, grain exports through the port of Vancouver totalled 45,709,713 bushels, while the New Westminster export was 2,460,655 bushels. Vancouver's total is only about one half of what it was on the same date last year. It is estimated that at the end of the season, July 31, the year's total will approximate 50 million bushels. In the crop year ending July 31st 1933 Vancouver shipments alone totalled 58 million bushels.

WOODSWORTH SAILED FOR JAPAN SATURDAY

J S Woodsworth, M P national chairman of the Co-operative Commonwealth Federation sailed from Vancouver Saturday on the S S Hikawa Maru for Kobe, Japan, where he will visit a brother who has been dean of the Canadian American church college for 20 years. There has been no retrogression from our platform, neither has there been any deviation, he declared before embarking.

Keep Money in your Own Town

HALSTORM AT CEREAL
One of the most destructive hail storms that ever visited this district came in from the northwest shortly after six o'clock last Friday evening. Preceded by a high wind which filled the air with dust and which drove the hail with such velocity that all standing grain was literally pounded into the earth and that
